Hungarian Assyriological Review formatting and styling guide & template

Manuscripts should be submitted electronically to info@harjournal.com, both in Microsoft Word (doc, docx, rtf) and pdf format. We accept manuscripts in English and German. Non-native speakers must have their text vetted by a native speaker before submission. The manuscript should include the title, the author's name, affiliation and e-mail address, text with footnotes, list of works cited, figure captions, 3-5 keywords, and an abstract in English (100-200 words). It should be typed single-spaced in 12-point Times New Roman or Semiramis font without any additional formatting, e.g. paragraph indenting, page breaks, page numbering, etc. Any special fonts used for characters that cannot be produced with the above fonts must be submitted electronically together with the manuscript. Abbreviations of text editions should follow the system of the *RlA*. Tables, plates, and figures should not be embedded in the text, but submitted as separate files.

Notes

HAR does not use in-text citation. Notes (including the references) should be formatted as footnotes, not as endnotes. References in footnotes should consist of the author's last name, the year of publication, and the relevant inclusive pages, figures, plates, etc. Do not use abbreviations such as *op. cit., loc. cit., ibid, idem, passim, infra, supra* or vague page ranges (e.g., 125f. or 125ff.). Since page numbers are rarely available in the case of online publications, use any available structuring element (e.g., §16, s.v., etc.), if applicable.

Footnotes with discussion and references

[1] The text has been dated by Lambert (1965, 2) to the reign of Nebuchadnezzar II, but von Soden (1985, 136) argues for a later date.

[2] Numerous tablets from these archives are housed at various American collections (Grant 1918, 199–204; 1919, 1–3; Faust 1941, 3–4) and in European ones (Figulla 1914, III–VI).

Bibliography

The manuscripts should close with a list of works cited, in alphabetical order by the last name of the first author according to the conventions of the manuscript's language. If the name's initial letter does not exist in the alphabet of the manuscript's language, the name should be

placed after the end of the base letter (e.g. Çoşkun should stand after names starting with C). Authors' and editors' first names should be given as initials adapted to the orthography (i.e. "Th." for Thomas, etc.). Name suffixes such as "Jr.", "IV" should be omitted. Unlike in the references, all authors of an article should be listed. Titles of journals and series should not be abbreviated, but given in full. Collective works with more than three articles cited should be included in the bibliography as individual titles. Do not give dates of reprints, but rather supply the original date of publication. Edition information should appear in upper index preceding the year (e.g. ^{2}2007), editions without numbering ("Revised Edition", etc.) should be supplied after the title. If the real year of publication is significantly different from the official year of publication, you may wish to add the real year in square brackets, e.g. "(2013) [2015]". Volume information should consist only of the number of the volume (without any abbreviations as "Vol. 2."). In the case of online publications without a recognizable date, use "(online)" instead of the year and place it after the author's publications with a known date. Please ensure that all references listed in the bibliography are cited in the text and that all cited works are included in the bibliography. The manuscript will be returned to the author if significant reformatting of the references is required.

Figures

References to figures in the text must appear in consecutive order. Please refer to all types of illustrations (images, drawings, maps, tables, plates, etc.) as Fig. in abbreviated form. A list of figures with appropriate captions and credits should be provided at the end of the manuscript. All explanatory material and legends should be placed in captions. Captions should be set as suggested below, with credits placed in parentheses and ending with a period.

It is the author's responsibility to obtain written permission for reproducing copyrighted images. While there is no limit to the number of figures, their number should be proportional to the length of the text. We accept digital images in colour or grayscale: tiff format of at least 300 dpi resolution is recommended. We accept charts in separate, editable formats only and not as tiff or jpeg files. The file name of any digital image and chart should consist of the author's last name and the figure number (e.g. Kramer_Fig1.tiff). Consider the page size of HAR which is A4 (210×297 mm) when sizing your images.
